Pre-consumer sources:

Post-consumer sources:

Eco Bleaching

Bleaching process:

Elemental Chlorine Free (ECF)

Totally Chlorine Free (TCF)

Other: _____

(Please Specify)

Waste Management Position

Water emissions: Water emissions from Fedrigoni Mills are within and under the strict guidelines and regulations of Italian law.

Air emissions: Air emissions are from methane combustion and from the drying paper process (water steam).

Solid waste land filled: 90% of solid waste is allocated for recycling.

Energy usage: Energy usage is guided by European policy 2003/87/CE to reduce greenhouse gas emissions.
